PROFESSIONAL SUMMARY

Aspiring AI & Machine Learning Engineer with hands-on experience in full-stack development, AI automation, and intelligent workflow solutions using Python, FastAPI, and n8n. Passionate about building scalable AI-driven applications and leveraging Generative AI to solve real-world business challenges.

EDUCATION

B.Tech, Artificial Intelligence and Data Science *2023 – 2027*
Loyola Institute of Technology | CGPA: 8.9/10

EXPERIENCE

Developer & ML Engineer Intern — Image Grafix Enterprises Pvt Ltd *Jun 2026 – Jul 2026*

- Worked as a Developer and ML Engineer, building and testing software features while applying ML concepts to support development tasks.
- Collaborated with the engineering team to deliver assigned tasks within project timelines.

Data Entry Intern — Wipro Infrastructure and Technology *Feb 2025 – Mar 2025*

- Validated and cleaned large-scale operational datasets to improve accuracy and consistency of downstream reporting.
- Managed structured records in company databases, supporting daily reporting cycles for the infrastructure team.
- Collaborated with cross-functional staff to standardize data-entry workflows, reducing manual errors.

PROJECTS

Web-Based Fake News Detection Using NLP

- Built a machine learning classifier using NLP preprocessing and TF-IDF vectorization to detect fake news articles from text content.
- Awarded Best Paper at both an international and a national conference for the underlying research.
- **Tech stack:** Python, scikit-learn, TF-IDF, NLTK/spaCy, Flask (web interface)

WebDOCAI — AI-Powered Healthcare & Wellness Platform

- Designed and developed a web platform that uses AI to support healthcare and wellness use cases such as symptom guidance and health tracking.
- Implemented the front-end and integrated backend logic to connect user input with AI-driven recommendations.
- **Tech stack:** Python, HTML/CSS, JavaScript, MySQL/MongoDB

EduVerse AI — Immersive Learning Platform

- Built an interactive learning platform offering personalized study assistance to improve student engagement and outcomes.
- Developed core web features and integrated AI-based content recommendations tailored to individual learners.
- **Tech stack:** Python, JavaScript, HTML/CSS, MySQL

CERTIFICATIONS & TRAINING

- Python for Data Science — NPTEL Certification
- Power BI Course — Office Master
- AI Tools Course — Be10X
- Digital Marketing with AI Course — IIDE
- Web Development Training — Zeno Technologies

TECHNICAL SKILLS

- **Languages & Tools:** Python, JavaScript, HTML, CSS, SQL, N8N, Yolo V8, RoboFlow,
- **ML / Data Science:** scikit-learn, NLP, TF-IDF, Pandas, NumPy, Power BI
- **Databases:** MySQL, MongoDB, JSON
- **Other:** Microsoft Office, Git/GitHub

ACHIEVEMENTS

- Recognized with the Best Paper Award at an International Conference for pioneering research on "Web-Based Fake News Detection Using NLP."
- Recognized with the Best Paper Award at a National Conference for the same research, reflecting consistent excellence in NLP and machine learning.

LANGUAGES

English, Tamil
